DÖLLKEN

A SURTECO BRAND

Doellken reserves the right to add or delete stock items without notice.

Colors and patterns have been individually matched and cross-referenced using

industry-accepted standards.

The manufacturer's best efforts have been utilized to ensure acceptable color matches, both between laminates and between laminate and Edgebanding.

However, color drift may occur in individual paper and resin batches that is beyond the manufacturer's control.

The manufacturer's warranty and liability for bond, color, pattern, surface finish and recommended matches extended only to the replacement value of the specific Edgebanding material involved.

All Edgebanding and laminate materials should be checked and confirmed for acceptability before use.

Doellken can not be held responsible for any errors or omissions in this booklet.

The Doellken Difference

Doellken is the North American leader among Thermoplastic Edgebanding suppliers for the woodworking industry. With factories, service centers and distribution partners throughout North America, Doellken is uniquely positioned to supply products and services to North American woodworkers from local distributors.

Innovation

As a member of a larger worldwide organization, we are able to stay ahead of the curve in bringing cutting-edge innovations to the North American market. We have recently introduced new products and stock programs specifically for our woodworking audience, including but not limited to: 3D, FusionEdge, High Gloss 5 and SuperMatte Edgebanding.

Quality

Doellken does not compromise on quality. Doellken has stringent quality assurance processes in place from planning to production, to sales. Doellken is committed to providing our customers with reliable product on every order.

Service

Doellken is able to fulfill customers' requests quickly and efficiently through our network of local distributors throughout North America. Our knowledgeable and courteous Customer Service staff is there for you before, during and after a sale.

The Perfect Match for your Laminate

Finding the matching Edgebanding to your laminate in this guide could not be easier. Starting on page 33, locate the Brand and then the Name or Number of your laminate, and you will be provided with the matching Doellken Edgebanding number along with the sizes in which it is available.

Stock program and Edgebanding

Doellken's stock program is the most comprehensive offering in the North American woodworking industry. Laminate brands are listed alphabetically and by laminate type, making the search quick and easy.

Stock Availability with Laminate Cross Reference

You will have access to the latest information about stock availability in any size for a particular Doellken design -- that includes a cross reference of our stocked colors to leading laminate manufacturers.

Online Edgebanding Finder

The Doellken website is your source for the most up-to-date information. You will find details about our company, range of products, news and other valuable information.

The Edgebanding Finder is a companion to this guide. Laminate match and stock availability is updated frequently so that you are always on the cutting-edge of design. When your favourite laminate manufacturer expands their offering you can be sure that Doellken is right there with them.

There are a number of useful search tools to help you complete your project. Visit www.na.doellken.com

Edgebanding

Thermoplastic Edgebanding is the foundation of our business. Our vast array of products is characterized by three primary programs:

DesignLine – A selection of avant-garde patterns and colors contribute to the latest urban looks. Whether matched to offerings from leading panel manufacturers or unique innovative designs like 3D Wave, your sourcing problems are resolved.

FusionEdge – The newest trend in technology continues to grow and become a mainstay of high-end component production. Where HotAir, Laser, Infrared or the coming Microwave technology is your choice, FusionEdge is the answer

Laminate Matching Program – A massive collection of matches to domestic and imported laminates is available for immediate shipment from stock. All proven designs and new trends are represented in multiple sizes and all of the new finishes in the market. The extensive laminate Listings, starting on page 33, will assist you to find the edgebanding that you need to complete your project. The **SpecLine** collection represents a focused offering that has guaranteed availability so that it can become the “Color Card” for your furniture range. Additional sizes and colors are available by means of our Make-To-Order program.

Add in the widest local distributor network, availability in single roll quantities and ever-refreshed stock, Doellken's Edgebanding program is the one to meet all your needs.

Adhesives

DORUS® - TECHNOMELT® EVA and PUR

Doellken is the exclusive distributor of DORUS® -TECHNOMELT® Adhesives for Edgebanding in North America. The stock program of high-quality EVA and PUR hotmelts has been further refined to meet the latest woodworking applications. DORUS® -TECHNOMELT® hotmelt products provide cost effective and reliable solutions for woodworkers.

You can expect the same approach to quality as with Doellken Edgebanding – simply the finest, most consistent product available on the market today. No competitor comes close to our reputation –don't trust your business to unknown results!

3D Edgebanding

3D Edgebanding Compliment your furniture design – residential or commercial – with the most luxurious Edgebanding available!

Doellken 3D Edgebanding is transparent and printed from the reverse providing an unsurpassed color depth and impact resistance. You can have it all – design and function! 3D Edgebanding is offered in modern designs including brushed aluminum, stainless steel, multiplex plywood and reflective. 3D Edgebanding is available in grooved patterns which offers furniture designers a tactile surface option, and is also available in a frosted option which looks and feels like glass.

DesignLine™

You are limited only by your imagination
with this modern and cutting-edge product range of Edgebanding!

Doellken's DesignLine contains a high quality range of Edgebanding products to be used virtually anywhere. Take designs to the next level: use on kitchen and living room furniture, in bathrooms, on kitchen worktops, retail environments, office desks and for store fixtures and interiors.

SuperMatte and 3D Wave have been recently added to this elite group of the DesignLine Edgebanding

These unique products are PVC-free
and Greenguard® certified

2-in-1 Edgebanding

2-in-1 Edgebanding combines a unique design of brushed aluminum strip with the matching design and color to your laminate, both in the highest gloss level available. The result? Stunning!

A back painted, glass-like appearance combining sophisticated high gloss with urban looking aluminum designs. A clever alternative to genuine glass. The Edgebanding ties together high gloss with metallic designs found especially in kitchens and baths.

2-in-1 Edgebanding

DigitalEdge Edgebanding

DigitalEdge Edgebanding Unlimited creativity with the Doellken DigitalEdge. This recent technological development will for the first time now allow the depiction of customised motifs (logos, photos, writing, graphic designs) on thermoplastic Edgebanding. The Doellken DigitalEdge Edgebanding will make designers' dreams come true. Give it a try and design your own Edgebanding. The Doellken team will gladly assist you should you have further questions.

GreenGuard™

GREENGUARD Certification is part of UL Environment, a business unit of UL (Underwriters Laboratories). GREENGUARD Certification helps manufacturers create--and helps buyers identify--interior products and materials that have low chemical emissions, improving the quality of the air in which the products are used.

Doellken has been awarded the **Greenguard Gold certificate**, the most stringent certificate to test products for emissions of volatile organic compounds (VOCs).

The company's PVC, and 3D acrylic Edgebanding products have been independently tested meeting one of the most rigorous chemical emission standards in the world!

FusionEdge™

Doellken, the market leader in Edgebanding technology, has developed a new and innovative generation of Edgebanding products that enables furniture and cabinet manufacturers to dramatically enhance both the quality and appearance of their products by substantially improving the strength and durability of their edge while virtually eliminating the traditional hot melt glue line. Due to the functional layer visible gaps are now a thing of the past.

FusionEdge offers a factory pre-applied proprietary coating that is consistent and color coordinated with the Edgebanding ensuring an invisible bond. Since the coating is already pre-applied on the Edgebanding, customers do not have to apply any adhesive thereby increasing their productivity.

The product is suitable for the latest HOT AIR, LASER, and INFRARED bonding technologies. Doellken's affiliation with leading machinery manufacturers such as BRANDT®/HOMAG®/STILES®, IMA®, BIESSE® and HOL-ZHER® reassures customers superior quality production processing.

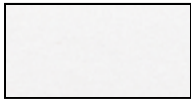

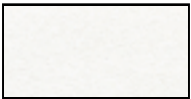

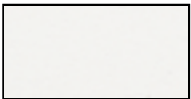

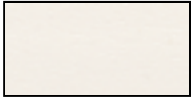

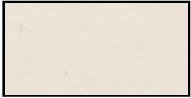

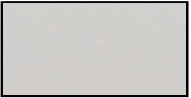

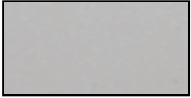

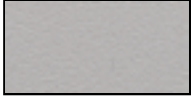

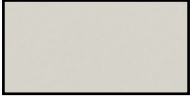

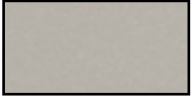

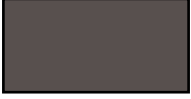

This innovative Edgebanding technology is also available to smaller woodworking shops across North America. Doellken offers FusionEdge in a wide variety of standard colors and decors in five common sizes from stock. The product is also offered in single rolls through the company's nationwide distribution network.

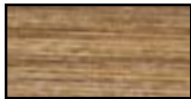

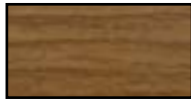

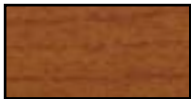

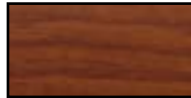

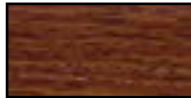

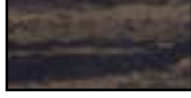

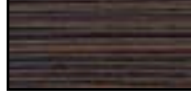

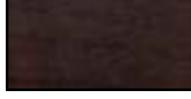

FusionEdge: superior Edgebanding that guarantees higher product quality for furniture manufacturers and cabinet makers through a perfect and durable joint provided by the market leader.

SpecLine™

Promote your furniture or cabinet line with Doellken's SpecLine in the 52 colors, woodgrains and designer patterns shown on this page. SpecLine will enable you to realize your designs quickly and efficiently. All designs are available from inventory in five sizes (15/16" x .018", 15/16" x 1mm, 15/16" x 3mm and 1-5/16" x .020", 1-5/16" x 3mm) in the smallest possible quantity, one single roll, guaranteed through 2018.

Adhesive

TECHNOMELT

Doellken is proud to be the exclusive North America distributor for DORUS®-TECHNOMELT® high-quality hotmelt Adhesives. Our stock program includes EVA and PUR hotmelts in cartridge (for HOLZ-HER® edgebanders) and granular form, filled and unfilled. We can also provide PVA white glues.

EVA Hotmelt Adhesives

The range of DORUS® - TECHNOMELT® EVA hotmelts is suitable for manual and automatic applications, straight-line and curved panel shapes. These hotmelts can also be used with a variety of edgebander types such as HOLZ-HER®, BIESSE®, IMA® and HOMAG® machines.

PUR Hotmelt Adhesives

The perfect solution is PUR Adhesive -- especially in high humidity areas, such as bathrooms and kitchens or extreme heat exposure, such as during transportation to Southern locations. The mechanical bonding between the Edgebanding and the panel builds a permanent link. PUR Adhesives need to be cleaned out with Cleaner 2 or Cleaner 4.

PVA Assembly Glues

PVA assembly glues are formulated for specific applications. DD060 Dowel insertion glue and MD041 wood assembly glue are fast setting white glues used in cabinet and drawer construction. Doellken recommends the use of ND183/1 primer for all difficult to bond Edgebanding materials – such as high pressure laminates and solid wood.

Laminates

It is easy to find matching Doellken Edgebanding for your laminate of choice.

Laminate brands are listed alphabetically. Each laminate is organized by type - solid colors, woodgrains, designer patterns - then by laminate number and name.

Read across to find the Doellken match number ("Doellken Match #.").

The eight columns to the right indicate the availability from inventory of that color or pattern in the most commonly used sizes.

Processing Information

Processing Information

PVC EDGEBANDING

WHAT IS PVC? Poly Vinyl Chloride is the most commonly known and widely used polymer for Edgebanding worldwide. Doellken has gained extensive knowledge and experience with this polymer over the years.

Machine Processing

Doellken PVC Edgebanding can be applied by using any automatic edgebander. It is also recommended for contour edgebanders and automatic workcenters, (BAZ, BIMA, Millenium). Cutting, bonding, trimming and scraping, as well as the subsequent application of buffing wheels are possible.

Processing Conditions

Substrate, adhesive and edgebanding should be applied at room temperature. The three components should be warmed up for 24 hours before processing, if they are stored in a colder environment. Cold panels or Edgebanding can result in a pre-mature adhesive set-up. Evidence of premature set-up would be adhesive bonding well to the substrate but not to the Edgebanding. The optimum wood moisture content of the substrate should be between 7% and 10%. All panel edges should be cut square and clean.

Running Speed

For all running speeds, a hotmelt adhesive with an appropriate open time should be selected. Tests should be performed to determine the best overall temperature based on the line speed being run.

Types of Hot Melt

Commonly available hot melt Adhesives (EVA, PA, PUR) can be used with Doellken PVC Edgebanding. To achieve a minimal glue line all Doellken Edgebandings are produced with a slight concavity. We recommend the high quality Dorus® adhesive line. Please visit www.na.doellken.com.

Hot Melt Application

The adhesive should be applied evenly and in such quantity that no beads are squeezed out at the edges so that the hollow space between the particles is properly filled. The quantity of glue applied depends on the type and density of the particleboard: the lower the particleboard density the higher the required amount of hot melt. During bonding, it is important to ensure that there is always an adequate amount of adhesive in the container, so that only minimum temperature changes occur during adhesive application.

Glue Pot Temperature and Maintenance

Please note that the thermostats in the glue pot may be inaccurate and can display values which deviate sometimes substantially from the actual hot melt temperature. Doellken recommends the glue pot temperature be turned down to approximately 150°C if the edgebander is not going to be used for an extended period of time. This temperature will keep the adhesive molten, allow for a fast heat up, and also prevent unnecessary adhesive breakdown and oxidation. It is also recommended that if the molten adhesive sits in the pot for an extended time, it should be stirred or agitated. Excessive heat will cause the adhesive to break down, creating charring and odors.

Pressure Rollers

Ensure that the pressure roller set and the individual rollers are aligned properly to achieve a consistent pressure distribution onto the Edgebanding. Follow the machine manufacturer recommendation regarding supply air pressure.

Guillotine Cutting The guillotine cutting blades should be sharp to ensure a clean cut.

End Cutting The Edgebanding overhang at the ends should be minimal to simplify the subsequent end trimming. The cutting blades should also be sharp to ensure a clean cut.

Flush or Radius Trimming

Multi-blade trimmers with 4 - 6 blades and rpm of 12,000 to 18,000 are recommended.

Scraping The scraper depth should be 0.10 to 0.15mm to avoid excessive stress whitening. Scraper blades must be sharp.

Polishing Lastly, clean buffing wheels should be applied to totally eliminate remaining stress whitening and achieve a clean and polished edge finish.

Types of Hotmelt Please request our Dorus® Adhesive brochure.

Cleaning *It is recommended that Doellken PVC Edgebanding is cleaned with special citrus based cleaners. Environmentally unfriendly substances such as acetones and lacquer thinners containing high concentrations of solvents or alcohol are not recommended and may damage the product.*

Processing Information

3D EDGEBANDING

WHAT IS 3D? Doellken 3D Edgebandings are made of highly transparent acrylic. The special three-dimensional effect is achieved by applying the finish to the back of the Edgebanding. It has a higher transparency than glass and may be recycled or incinerated with general waste.

Machine Processing Straightline Application

Doellken 3D Edgebanding can be processed on any straightline Edgebanding. Attention has to be paid to the Edgebanding rollers that feed the 3D Edgebanding to the substrate. These rollers need to be rubber coated to avoid damage to the print or foil.

Application on Contour Edgebander and Automatic Workcenter

Doellken recommends to apply 3D Edgebanding on curved panels manufactured on contour edgebanders or automatic work-centers with an outside radius of at least 200mm (8") and an inside radius of at least 100mm (4").

Processing Conditions

Substrate, adhesive and Edgebanding should be applied at room temperature. All three components should be warmed for at least 24 hours before processing, if they are stored in a colder environment. Cold panels or Edgebanding can result in a pre-mature adhesive set-up. Evidence of premature set-up would be adhesive bonding well to the substrate but not to the Edgebanding. The optimum moisture content of the substrate should be between 7% and 10%. All panel edges should be cut square and clean.

Running Speed

For all running speeds, a hot melt adhesive with an appropriate open time should be selected. Tests should be performed to determine the best overall temperature based on the line speed being run.

Types of Hot Melt

Commonly available hot melt Adhesives (EVA, PA, APAO or PUR*) can be used with Doellken 3D Edgebanding. To achieve a minimal glue line Doellken Edgebandings are produced with a slight concavity. We recommend the high-quality DORUS® adhesive line. Please visit www.na.doellken.com. *Hotmelts or glues may not contain solvents.*

Hot Melt Application

The adhesive should be applied evenly and in such quantity that no beads are squeezed out at the edges so that the hollow space between the particles is properly filled. The quantity of glue applied depends on the type and density of the particleboard: the lower the particleboard density the higher the required amount of hot melt. During bonding, it is important to ensure that there is always an adequate amount of adhesive in the container, so that only minimum temperature changes occur during adhesive application.

Glue Pot Temperature and Maintenance

Please note that the thermostats in the glue pot may be inaccurate and can display values which deviate, sometimes substantially from the actual hot melt temperature. Doellken recommends the glue pot temperature be turned down to approximately 150° C if the edgebander is not going to be used for an extended period of time. This temperature will keep the adhesive molten, allow for a fast heat up, and also prevent unnecessary adhesive breakdown and oxidation. It is also recommended that if the molten adhesive sits in the pot for an extended time, it should be stirred or agitated. Excessive heat will cause the adhesive to break down, creating charring and odors.

Pressure Rollers

Ensure that the pressure roller set and the individual rollers are aligned properly to achieve a consistent pressure distribution onto the Edgebanding. Follow the machine manufacturer recommendation regarding supply air pressure.

Guillotine Cutting The guillotine cutting blades should be sharp to ensure a clean cut.

End Cutting The Edgebanding overhang at the ends should be minimal to simplify the subsequent end trimming. The cutting blades should also be sharp to ensure a clean cut.

Flush or Radius Trimming Multi-blade trimmers with 4 - 6 blades and rpm of 12,000 to 18,000 are recommended.

Scraping The scraper depth should be 0.10 to 0.15mm to avoid excessive stress whitening. Scraper blades must be sharp.

Polishing Clean buffing wheels should be applied to totally eliminate remaining stress whitening and achieve a clean and polished edge finish.

Processing Information

3D EDGEBANDING

Cleaning

It is recommended that Doellken 3D Edgebanding are cleaned with special citrus based cleaners. Environmentally unfriendly substances such as acetones and lacquer thinners containing high concentrations of solvents or alcohol are not recommended and may damage the product.

Manual Processing

Doellken 3D Edgebanding can also be applied manually. If 3D Edgebanding is applied without assistance of machinery, the following Adhesives are recommended:

- DORUS LD 084
- Jowat Jowacoll 17870
- Fuller Racollit 77 (+ hardener, if necessary)
- *Contact Adhesives can also be used but may not contain solvents.*

Thermoforming The Radii

Outside radii tighter than 200mm (8") and inside radii 100mm (4") can be achieved by heating up 3D Edgebanding to 100° C to 120° C (212° F to 248° F). While still soft, the Edgebanding is adapted to the substrate shape and held in place. It is necessary to ensure that the material is not drawn. The Edgebanding must be held in shape until it has cooled down.

The excess length of the Edgebanding can be trimmed off with a handheld trimmer. If any smear effects occur, it is necessary to adjust the rpm or the direction of the trimmer. Best results are achieved with reverse rotation.

Any chatter marks that remain after trimming can be removed with an abrasive paper of 240 to 400 grain. It is recommended to buff the material subsequently with a polishing wheel and a polishing compound for acrylates to achieve the required gloss level.

SURTECO USA INC. SURTECO CANADA LTD.

General Terms And Conditions July 30, 2017

1. **Purchases Controlled By These Terms and Conditions.** All sales to Buyer by Surteco USA Inc. and Surteco Canada Ltd. as applicable (Surteco USA Inc. and Surteco Canada Ltd.), shall be made by Surteco USA Inc. and Surteco Canada Ltd. and accepted by Buyer on the provisions of these Terms and Conditions.
2. **No Duty To Do Business.** Surteco USA Inc. and Surteco Canada Ltd. reserves the right to not do business with Buyer at any time, and for any reason, and assumes no duty to sell to Buyer.
3. **Right to Sell or Use Products.** Surteco USA Inc. and Surteco Canada Ltd. reserves the right to make, sell and/or compete with Buyer with products similar to, or the same as, products sold to Buyer.
4. **Acceptance of Orders.** All orders are subject to acceptance and approval by Surteco USA Inc. and Surteco Canada Ltd.
5. **Processing of Orders.** Surteco USA Inc. and Surteco Canada Ltd. reserves the right to charge Buyer costs incurred from order cancellations or changes, and to consider additions as separate orders.
6. **Back-Orders.** When Surteco USA Inc. and Surteco Canada Ltd. is unable for any reasons to make a complete shipment of any order, Surteco USA Inc. and Surteco Canada Ltd. reserves the right to make partial shipments and to submit invoices for such partial shipments. Back orders will be filled at prices and terms governing the complete original order.
7. **Price Changes.** All prices quoted from time to time by Surteco USA Inc. and Surteco Canada Ltd. are subject to change by Surteco USA Inc. and Surteco Canada Ltd. without notice up to time of shipment.
8. **Prices Exclude Taxes.** Buyer agrees to pay any such taxes applicable to the sale or use of the products or, in lieu thereof, Buyer shall provide Surteco USA Inc. and Surteco Canada Ltd. with a tax exemption certificate acceptable to the relevant taxing authorities. Buyer shall promptly reimburse Surteco USA Inc. and Surteco Canada Ltd. for any tax advanced or paid by Surteco USA Inc. and Surteco Canada Ltd. with respect to such products.

9. **Title to Goods.** Title to goods passes to Buyer when Surteco USA Inc. and Surteco Canada Ltd. receives full payment, however, risk of loss passes to Buyer at the time of shipment.
10. **Shipping.** All shipments are FOB (Incoterms 2000) Surteco USA Inc. and Surteco Canada Ltd. Separate charges for shipping and handling will be shown on invoices.
11. **Credit Terms.** Credit terms are, at the option of Surteco USA Inc. and Surteco Canada Ltd., either COD or net 30, unless otherwise stated in writing by Surteco USA Inc. and Surteco Canada Ltd. Buyer agrees that all invoices unpaid, in whole or in part, within terms will be subject to a service charge of the lesser of 1.5% per month (19.56% per year) or the maximum rate permitted by applicable law.
12. **Product Specifications.** Surteco USA Inc. and Surteco Canada Ltd. makes and sells products ordered by Buyer subject to reasonable tolerances set by Surteco USA Inc. and Surteco Canada Ltd. from time to time. Surteco USA Inc. and Surteco Canada Ltd. is not in any way liable for reasonable commercial variations in finish, weight and color. No condition, warranty or stipulation is made in respect of color stability of plastics due to solar effects from weather or other atmospheric conditions. Surteco USA Inc. and Surteco Canada Ltd. reserves the right to exceed/ miss order quantities for custom production items by plus/minus 10 per cent.
13. **Limited Warranty.** Products manufactured by Surteco USA Inc. and Surteco Canada Ltd. are warranted to the Buyer to be free of defects in material and workmanship for a period of six (6) months from date of purchase from Surteco USA Inc. and Surteco Canada Ltd. Surteco USA Inc. and Surteco Canada Ltd. sole responsibility and liability and Buyer's sole and exclusive remedy for any breach of the foregoing limited warranty shall be the repair or replacement of the defective Product or refund of the purchase price at Surteco USA Inc. and Surteco Canada Ltd. option. Products, which are sold by, but not manufactured by, Surteco USA Inc. and Surteco Canada Ltd., are subject to the warranty provided by the manufacturer of said products and are not warranted by Surteco USA Inc. and Surteco Canada Ltd.

THE LIMITED WARRANTY GIVEN IN THIS SECTION IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND CONDITIONS EXPRESSED OR IMPLIED ON THE PART OF SURTECO USA INC. AND SURTECO CANADA LTD. SURTECO USA INC. AND SURTECO CANADA LTD. DISCLAIMS ANY WARRANTY OR CONDITION, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

SURTECO USA INC. SURTECO CANADA LTD.

General Terms And Conditions July 30, 2017

- 14. Claims.** If Buyer believes there is a defect with products sold by Surteco USA Inc. and Surteco Canada Ltd. to Buyer, Buyer must (i) immediately notify Surteco USA Inc. and Surteco Canada Ltd. of such defect, (ii) cooperate fully with the investigation of the alleged defect, and (iii) comply in full with all shipping and return policies established by Surteco USA Inc. and Surteco Canada Ltd. from time to time.
- 15. Returns.** No merchandise will be accepted by Surteco USA Inc. and Surteco Canada Ltd. as a return unless such return is authorized in writing by Surteco USA Inc. and Surteco Canada Ltd..
- 16. Limited Liability.** If there exists a defect with any Product sold by Surteco USA Inc. and Surteco Canada Ltd. to Buyer covered by the above limited warranty, Surteco USA Inc. and Surteco Canada Ltd.'s liability shall be limited to repairing or replacing at Surteco USA Inc. and Surteco Canada Ltd.'s option, F.O.B. Surteco USA Inc. and Surteco Canada Ltd.'s factory/warehouses or authorized service station, the defective product in question or at Surteco USA Inc. and Surteco Canada Ltd.'s option refund of the purchase price. Surteco USA Inc. and Surteco Canada Ltd. will not be liable for any costs of removal, installation, transportation, or any other charges, which may arise in connection with a warranty claim. Surteco USA Inc. and Surteco Canada Ltd. will not be liable for damage or wear to products caused by abnormal operating conditions, accident, abuse, misuse, unauthorized alteration or repair, or if the product was not installed in accordance with Surteco USA Inc. and Surteco Canada Ltd.'s printed installation and operating instructions. Buyer's sole and exclusive remedy pursuant to any claim of any kind, including but not limited to any warranty obligations, express or implied, or a claim in contract, negligence or strict liability, against Surteco USA Inc. and Surteco Canada Ltd. or any of Surteco USA Inc. and Surteco Canada Ltd.'s affiliates, shall be limited to the limited liability of Surteco USA Inc. and Surteco Canada Ltd. to repair, replace or refund the purchase price described in this section. Surteco USA Inc. and Surteco Canada Ltd. shall not be held responsible for damage to person or property, any consequential loss, special damage, loss of profit, losses on goods in store or the like, irrespective of the cause, including causes which arise out of or connected with these terms and conditions or from the performance or breach of the terms hereof, or from the design, manufacture, sales, delivery, resale, installation, technical direction of installation, inspection, repair, operation or use of any product or part thereof covered by these terms and conditions or sold to Buyer by Surteco USA Inc. and Surteco Canada Ltd.
- 17. Indemnity.** Buyer agrees to indemnify Surteco USA Inc. and Surteco Canada Ltd. (including without limitation its directors, officers, employees, agents and contractors) from liability for damage to persons or property resulting from the use of product in manufacturing processes, or in combination with other substances, or otherwise. Buyer represents to Surteco USA Inc. and Surteco Canada Ltd. that it has used its own independent skill and expertise in connection with the selection and use of the product, and that it possesses skill and expertise in handling, storage, transportation, treatment, use and disposal of the product.
- 18. Time Frame for Bringing Action.** Any action for breach of warranty, condition or defect must be commenced within one (1) year of date of delivery.
- 19. Intellectual Property.** Buyer agrees not to appropriate, copy, use or disclose to third parties any of Surteco USA Inc. and Surteco Canada Ltd.'s proprietary trade secrets, such as plans, specifications, drawings, samples, tools, dies, models or manuals. Buyer shall not file for patent, trademark, service mark or copyright protection for any of Surteco USA Inc. and Surteco Canada Ltd.'s products.
- 20. Future Documents.** These terms and conditions contain the entire provisions governing the purchase of products by Buyer from Surteco USA Inc. and Surteco Canada Ltd. Any additional, different, or inconsistent term or condition contained in any form of purchase order, notice, acceptance, or confirmation used by Buyer or submitted by Buyer to Surteco USA Inc. and Surteco Canada Ltd. in connection with the purchase of any materials from Surteco USA Inc. and Surteco Canada Ltd. will be of no force or effect whatsoever and these terms and conditions shall govern the sale of goods sold to buyer notwithstanding that a purchase order or a document used in a sale contains terms in contradiction of these terms and conditions. These terms and conditions may be amended or modified only by a written instrument separately signed by Buyer and Surteco USA Inc. and Surteco Canada Ltd. No agent, salesman, or distributor has any authority to obligate Surteco USA Inc. and Surteco Canada Ltd. by any terms, stipulations or conditions not herein expressed.
- 21. Binding Upon Successors and Assigns.** These Terms and Conditions shall be binding upon any successor or assign, by merger, acquisition or otherwise, of Buyer.

SURTECO USA INC. SURTECO CANADA LTD.
General Terms And Conditions July 30, 2017

22. **Governing Law.** With respect to Surteco USA Inc. these Terms and Conditions must be governed by and construed in accordance with the laws of the State of North Carolina (without regard to conflicts of law principals). Any suit relating hereto, with respect to Surteco USA Inc. must be filed in the courts in the State of North Carolina, USA. With respect to Surteco Canada Ltd. these Terms and Conditions shall be governed by and construed in accordance with the laws of the Province of Ontario. Any suit relating hereto, with respect to Surteco Canada Ltd. shall be filed in the courts in the Province of Ontario, Canada.
23. **Waiver.** If, on any occasion, Surteco USA Inc. and Surteco Canada Ltd. waives any term or condition, this waiver is not to be construed as a continuing waiver and any waiver by Surteco USA Inc. and Surteco Canada Ltd. must be in writing, signed by an authorized officer of Surteco USA Inc. and Surteco Canada Ltd.
24. **Force Majeure.** All orders are accepted subject to delays in delivery caused by fires, floods, accidents, embargoes, labor disputes, failure of suppliers to deliver goods, material shortages or any other contingencies beyond the control of Surteco USA Inc. and Surteco Canada Ltd..
25. **Severability.** If any provision of these Terms and Conditions or the application thereof to any person or circumstance is held invalid to any extent, then the remainder of the Terms and Conditions or the application of such provision to persons or circumstances other than those as to which it is held invalid shall not be affected thereby, and each provision of these Terms and Conditions shall be valid and enforced to the fullest extent permitted by law.
26. **Headings.** The headings for each paragraph are for convenience of reference only and shall not be deemed a part of these Terms and Conditions.
27. **Attorney Fees.** In the event of any controversy or claim with respect hereto, the prevailing party will be entitled to recover its reasonable attorneys' fees and costs, whether suit or other proceeding is commenced or not, and whether in mediation, arbitration, at trial, on appeal, in administrative proceedings or in bankruptcy (including without limitation any adversary proceeding or contested matter in any bankruptcy case).
